## WELCOME

Naha Dehe, Ivvavik, Dákéyi. The traditional names of Canada's most celebrated National Parks ring loud in the languages of the North's First Peoples. Each phrase connotes belonging and a relationship with land and ecology based on respect and sense of place.

These places remain timeless, testament to the stewardship of their early inhabitants and their more recent permanent protection as National Parks. As we contemplate the first journeys through these lands with our own children, the fourth generation to have this privilege, we can only look around us with wonder and gratitude.

The beauty and scale of these watersheds is matched by the profundity of the experiences they provide to those who spend time on their shores. You will never forget the moment you witness the calving of an Alsek Glacier in Kluane National Park. Or the morning you awoke to skeins of caribou hair collecting along rafts just downstream of where 225 000 Porcupine caribou migrated across the Firth River. Or the time you felt the vibrations of the powerful drum beat of young Dene river guides reclaiming their connection to the lands in the kilometre deep canyons of the Nahanni.

Any one of these experiences makes those who travel these rivers amongst the most fortunate people on earth.

Whether you choose to travel to connect with friends and family or to capture images you will treasure for years to come, our knowledge of the watersheds we share is unparalleled. We know these are the trips of a lifetime which is why words like "good enough" just aren't in our vocabulary.

Every step of the way you will find that a journey with Nahanni River Adventures and Canadian River Expeditions is "a cut above." From your connection with our friendly and knowledgeable Expedition Planning Team, to arriving at your first sublime riverside campsite, to when your guide points out the location of a resident gyrfalcon nest, you can be confident in the value and quality of your adventure!

Our team of incredible guides are the best in the North; many having shared their passion for wild spaces and exceptional service for decades. Whether on one of our acclaimed Canadian Geographic Adventures or to create a private experience for just you and your loved ones you can be confident the memories you create will last forever. As we look to 2026 we can't wait to welcome you to the North and to share the rivers that have captured our imaginations and filled our souls, since 1972.

Yours for Adventure,  
**Joel Hibbard & Dana Hibbard**  
*Outfitters and Wilderness Guides*

A river journey exists for everyone.

## ABOUT US

At Nahanni River Adventures and Canadian River Expeditions, we helped pioneer the sport of whitewater paddling expeditions in the early seventies.

From the iconic Nahanni River to the Arctic's Firth, and the coastal wonders of the Alsek and Tatshenshini, from Alaska to Nunavut, we know all of our rivers well – from their campsites to their hiking trails to their rapids to their wildlife, geology and history.

We are experts and the industry leaders in guiding multi-day wilderness trips – from contingency planning, to operational logistics, to how to bake delicious cinnamon buns for breakfast over a campfire.

With us, you have the opportunity to not only embrace a unique destination, but also to experience an adventure vacation that's truly the highest quality in every respect. Traveling in exclusive small groups by expedition raft or canoe, our float journeys allow you to reconnect to the natural world in a rich, meaningful, and comfortable way. We have taken over 12,000 paddlers downriver since 1972 and our guest repeat rate of over 40% speaks for itself.

Read on to find out why National Geographic Adventure Magazine rated us one of "The Best Adventure Travel Companies on Earth!"

# SUSTAINABILITY AND CONSERVATION

The North is our home, we have spent our lives discovering and sharing these vast, roadless watersheds. Protecting these places as contiguous wildlands is crucial for future generations, for the animals that fascinate us and the waters that sustain us.

Since 1992, Nahanni River Adventures and Canadian River Expeditions has led the conservation conversation in the South Nahanni watershed through the Nahanni River Outfitters Association and in the Tatshenshini-Elsek watershed through the Tatshenshini-Elsek Outfitters Association. Through our unique Rafting With Researchers program on the Firth River we have closely supported Parks Canada's direct research in Ivvavik National Park.

Our standing as a member business of 1% For The Planet sees us support conservation organizations such as the Canadian Parks and Wilderness Society and Yellowstone to Yukon. We have been partners and allies in their long and eventually successful fight to see the Seven Sacred Rivers of the Peel permanently protected from mining.

We have also invested in the creation of an Indigenous guiding company and funded training opportunities for Indigenous youth. These investments are providing economic opportunity and connection to the land, supporting a new generation of guardians of the land.

*Paddlers enjoy a moment of harmony on the Horton river.*

## OUR DESTINATIONS

Each of our spectacular river journeys allows us to travel through the most iconic and remote wilderness destinations in Northern Canada and Alaska. Whether you enjoy the excitement and comfort of expedition rafting, a challenging canoe adventure or the solitude and relaxation of flat water, you will come home with stories that will last a lifetime.

**Nahanni River** – Visit the thundering Virginia Falls (Náìlìcho) and explore Canada’s deepest Canyons, A UNESCO World Heritage Site

**Tatshenshini River** – Float from the Yukon Plateau, through the largest non-polar icecap on Earth!

**Alsek River** – A grizzly bear sanctuary home to the tallest mountain in North America and powerful rapids.

**Firth River** – A Tundra landscape home to the largest barren ground caribou herd in Canada and North America’s oldest river.

Discover these watersheds and more including the Broken Skull, Wind, Snake, Coppermine, Horton, Mountain, Taseko, Chilko, Chilcotin, Soper, Thelon, Burnside!

geological wonders.*

## NAHANNI RIVER

Join us on an incredible journey down the Nahanni River – truly the icon of Canadian wilderness rivers. The Nahanni flows through a mountainous landscape, over Virginia Falls (Náìlìcho) – nearly twice the height of Niagara Falls – through Canada’s deepest river canyons, past hot springs and geological features so unique that the Nahanni River was declared the first UNESCO World Heritage Site by the United Nations in 1978.

The South Nahanni River, lying entirely within Nahanni National Park Reserve, is one of the world’s finest wild rivers. Its full 560 kilometre length is now protected. At Virginia Falls, the river cascades down an escarpment to form North America’s most spectacular undeveloped waterfall!

Immediately downriver from Virginia Falls lies eight kilometres of nearly continuous rapids and standing waves created as the

Nahanni River flows through Fourth Canyon. Nahanni National Park is home to strikingly diverse landscapes. Four great canyons, up to 1,200 metres deep.

At Rabbitkettle Hot Springs, warm water radiates outward to form an intricately terraced mound of tufa rock, more than 27 metres high. Whether by canoe or raft, the iconic Nahanni River is Canada’s most celebrated wilderness river for good reason – it is perhaps the most visually diverse landscape on earth!

Each of these itineraries will allow you to experience the power of Virginia Falls (Náìlìcho) at twice the height of Niagara, and the Canyon Kingdom, Canada’s deepest Canyons! As the centrepiece of this UNESCO World Heritage Site the Nahanni River is full of legend and lore and your experienced guide team will share their knowledge of ecology, geology and fascinating human history.

### **Seven Day Expedition** (Raft/Canoe/Kayak)

A Nahanni River rafting or canoeing experience is truly the “trip of a lifetime.” For those with limited vacation time, this adventure allows you to experience the best of the Nahanni’s “Grand Canyons,” Virginia Falls and many of the iconic features for which the Nahanni River is renowned! Best experienced: June through August.

**CAD \$9,985** +5% GST & \$158 Park Fee

**USD \$7,680** +5% GST & \$122 Park Fee

### **12 Day Expedition** (Raft/Canoe/Kayak)

Our Nahanni River 12-day trip covers the same distance as our seven day trip but allows more time for additional hiking and exploring of the canyon rim and geological wonders along the river valley. It is well worth savouring the full beauty of the river with the beautiful name. Best experienced: June through August.

**CAD \$11,135 / \$11,635** (Can Geo) +5% GST & \$220 Park Fee

**USD \$8,565 / \$8,950** (Can Geo) +5% GST & \$170 Park Fee

### **14 Day Expedition** (Canoe)

The classic canoe quest begins at Rabbitkettle Lake and over 14 days we will journey to the confluence with the Liard River. This expedition is considered a must do for the skilled whitewater canoeist and affords an opportunity to view many of the wonders of Nahanni National Park Reserve and ample time for hiking and interpretive experiences. Best experienced: June through August.

**CAD \$10,200** +5% GST & \$220 Park Fee

**USD \$7,840** +5% GST & \$170 Park Fee

*Each of our destinations is of global significance, Virginia Falls (Náíljcho) stands as the centre piece of UNESCO World Heritage site, Nahanni National Park Reserve, NWT, Canada.*

*The sapphire ice of the largest non-polar icecap on the planet is a constant companion on the Alsek River. Walker Glacier, Glacier Bay National Park and Preserve, Alaska*

# TATSHENSHINI RIVER

Join us for rafting expeditions on the Tatshenshini River – one of the most magnificent river systems on earth, flowing through one of the world’s most pristine wilderness areas.

Part of the world’s largest bio-preserve, the Tatshenshini flows through the Yukon, British Columbia, Alaska, Glacier Bay National Park, Alsek/Tatshenshini Provincial Park and out to the Gulf of Alaska.

The Tatshenshini and Alsek form a “Y” where the Tatshenshini flows into the Alsek River. The upper portion of each is dramatically different, so you want to keep both on your list.

On this journey, rafters will hike into the alpine and float in an iceberg filled lake. Bald eagles and grizzlies abound.

The Tatshenshini River begins as a trickle in the alpine meadows of the Chilkat Summit, then swells to more than half a mile (about one kilometre) in breadth. At its confluence with the Alsek River, the two rivers rival the largest drainages on the continent. Together they form a vital green corridor, between the interior and coast, through the highly glaciated and rugged peaks of the St. Elias Range and coastal mountains.

## 12 Day Expedition (Raft)

One of the most magnificent river systems on earth, flowing through one of the world's most pristine wilderness areas, the Tatshenshini stands as an ecological wonder where the largest non-polar icecap in the world feeds salmon-filled rivers under the towering Mount Fairweather, the tallest coastal mountain in the world. Best experienced: June through August.

**CAD** \$10,200 +5% GST & \$176 Park Fee

**USD** \$7,850 +5% GST & \$135 Park Fee

Noel Hendrickson photo.

Melt Creek flowing into the Tatshenshini River, British Columbia. Noel Hendrickson photo.

Drifting amongst the icebergs of Lowell Lake, Kluane National Park, Yukon Territory. Taylor Burk photo.

# ALSEK RIVER

Join us on an incredible rafting journey down the Alsek River, voted by guides as the wildest river in North America. The Alsek is renowned for large rapids, dramatic mountain valleys and glaciers, and is a true wilderness treasure.

The Alsek River has its origins only a short distance from the Tatshenshini but the difference between the two rivers is dramatic. Starting in the rain shadow of some of North America’s tallest peaks, the Alsek River flows through two glacial lakes with spectacular hiking opportunities. Known for grizzly bears and wildflowers, it is a must do for any naturalist.

- Flows through the Yukon, British Columbia, Alaska, Glacier Bay National Park, Tatshenshini-Alsek Provincial Park, to its denouement at the Gulf of Alaska
- The Upper and Full Alsek include a spectacular helicopter portage over Turnback Canyon and the surging Tweedsmuir Glacier
- The Upper Alsek flows through Kluane National Park and Reserve, a UNESCO World Heritage Site and courses through a Himalaya like landscape

The Alsek begins at the confluence of the Dezadeash and Kaskawulsh rivers and flows through a broad valley within Kluane National Park and Reserve, which leads to iceberg dotted Lowell Lake.

## 12 Day Expedition (Raft)

Renowned for large rapids, dramatic mountain valleys and glaciers, the Alsek River is a wilderness treasure. A rafting expedition on the Alsek, a coveted Canadian Signature Experience, allows you to visit the world's largest biological preserve and experience genuine alpine splendour only rivalled by the Himalaya. The Alsek, while extraordinarily different from the Tatshenshini River, is only "one valley over" and is rich with glaciers, icebergs, wildlife and deep canyons. A helicopter portage around Turnback Canyon adds to the scenic adventure on this classic rafting expedition full of glaciers and grizzlies! Best experienced: June through August.

**CAD \$11,455** +5% GST & \$250 Park Fee

**USD \$8,800** +5% GST & \$192 Park Fee

Heading for the Arctic Ocean - floating upon the Crystal Waters of the Firth River Canyon after a day full of hiking and wildlife viewing. Firth River, Ivvavik National Park, Yukon. Tyler Garnham photo.

# FIRTH RIVER

Join us on an incredible rafting journey down the Firth River for an enchanting, scenic passage to the arctic tundra plains and the Beaufort Sea. The Firth River connects the British Mountains to the Arctic Ocean, lies deep within the northern Yukon, adjacent to Alaska, and bisects Ivvavik National Park.

- The Firth River flows through the most diversely dramatic landscape in the high arctic from the British Mountains to the Beaufort Sea
- Tremendous whitewater in shallow canyons that cut through the tundra to the Arctic Ocean
- Adjacent to the Arctic National Wildlife Refuge (ANWR) and on the migration route of the famed Porcupine caribou herd (over 225,000 strong!)
- Traditional territory of the Inuvialuit people

- Home to the most northerly herd of Dalls Sheep in the world as well as muskox, caribou, wolves, fox, grizzly and raptors
- One of the oldest rivers on the continent

The area surrounding the Firth is a land of contrasts—forest and tundra, craggy peaks and alpine meadows, wild coastline and ice-filled seas. Wildlife roams unimpeded here with a diversity unrivalled elsewhere in Canada. Barren-ground caribou, mountain sheep, moose, muskoxen, grizzly bears, wolves and wolverines, and a wide variety of bird species all make their home in this arctic habitat.

Our knowledgeable and enthusiastic guides will help you better understand the geology and wildlife, adding to a fascinating journey through the wild and remote landscape.

## 12 Day Expedition (Raft)

Home to the Porcupine caribou herd, each year some lucky adventurers find themselves surrounded by thousands of migrating caribou. As we float upon crystal clear waters we often observe other Arctic wildlife including wolves, grizzly bears and musk ox. The Firth is a must do for any connoisseur of northern travel! Best experienced: June through August.

**CAD** \$17,225 / \$17,850 (Parks Canada) +5% GST & \$220 Park Fee

**USD** \$13,250 / \$13,730 (Parks Canada) +5% GST & \$170 Park Fee

*When we immerse ourselves in the wilderness sometimes the neighbours come to visit. Wind River, Yukon.*

## OTHER ARCTIC RIVERS

Every river we travel is stunningly beautiful, with world class features, great hiking and colourful histories. Many have special protection designation or unique geological features—most have all of these qualities and more. (No matter which river you choose, bragging rights are always included in the price of the trip.) Most of our destinations require float plane or helicopter access and sometimes both! Visiting each of these rivers is truly a lifetime accomplishment for the most experienced traveler!

Many of the rivers we travel are Canadian Heritage Rivers, several are part of the largest areas of protected land in the world, and all of them are perfect for a wilderness experience you'll never forget – we guarantee you'll return home with a great story to tell!

The other wonderful rivers we share:

- Broken Skull River**
- Wind River**
- Snake River**
- Taseko, Chilko & Chilcotin Rivers**
- Horton River**
- Mountain River**
- Coppermine River**
- Stikine River**
- Burnside River**
- Thelon River**
- Soper River**

Our experienced Expedition Planners would be happy to help select the best destination for you.

# WHY TRAVEL WITH CRE?

Most companies will have good gear, good food and a reasonable itinerary on paper, so how do you pick the one that's right for you?

We understand our guests are looking for a once in a lifetime experience, with a treasure trove of great stories to take home. They often won't be back to the same river a second time. So it's our job to make that happen, and we take that responsibility seriously – without cutting corners. Words like average and good enough just aren't in our vocabulary. We are the most consistent at delivering on this promise. We know you want to "do it right" and all of our efforts add up to the best experience and greatest value.

### OUR GUIDES MAKE ALL THE DIFFERENCE

Considered leaders in their field, our guides are passionate, knowledgeable and highly trained. Each guide completes rigorous training and we ensure each one has fully up-to-date instructor, wilderness first aid, and swift water rescue certifications. Most of our guides have been with us for years (many more than 20!) and they truly set the standard for river experience and knowledge.

Because of our successful reputation and the iconic status of the rivers we travel, we're able to attract the best guides from across the country. These men and women are mature, friendly leaders who have a passion for these places, extensive knowledge and love sharing it.

## RATIO OF STAFF TO GUESTS

Experience has taught us that one of the most important factors for a high-quality and safe adventure is the ratio of staff to guests – we operate with one guide per four guests maximum. Even the best guides can only be in one place at one time, so a low ratio of guests to guides is crucial – for both the safety and comfort of everyone on the trip. You're making an important investment – you deserve the best from your guides and they can only provide this if they aren't spread too thin.

## FOOD: THE WOW FACTOR

At the end of an active day in the fresh mountain air, you deserve to be rewarded by the aroma and taste of a great meal with fresh ingredients, perhaps with a wine you selected. Or how about freshly baked cinnamon buns with your morning tea or coffee? On our river journeys you can expect to eat as well or better than you do at home—and we do the cooking!

Over twenty years of practice has allowed us to fine tune our menu to the highest standards – we call it the “wow factor.” Our menu includes plenty of fresh vegetables and fruit, as well as exciting local delicacies served as appetisers. Local dishes are served separately from the main meal so the choice is yours to sample or not. However, few say no to fresh Arctic char, wild Taku River salmon, caribou and other local delicacies.

Our team is experienced in catering to dietary preferences and allergies, if you have any questions just ask our Expedition Planning Team!

*Journeys of  
Discovery  
Under the  
Midnight  
Sun*

*Fresh baking and a great  
cup of coffee to start the  
day...*

## SAFETY

We maintain the highest standards for river safety and we are proud to have a reputation for excellence in this area. Our guides are certified in Wilderness First Aid and Swiftwater Rescue. We employ comprehensive and well-rehearsed emergency procedures and trip contingency planning in line with wilderness camping experiences.

Satellite communication is also a fixture on all of our trips and our Operations team is standing by to tackle any details that need attention in the field.

## SKILLS REQUIRED FOR RAFT BASED EXPEDITIONS

Our raft expeditions are designed for people of any skill level, including novices. Our Nahanni Canyon Kingdom journeys include the option to paddle an inflatable canoe, inflatable kayak or pack raft. These crafts are fun and accessible to paddle on the mellow water and the whitewater.

For those seeking an active holiday or wanting to experience the river on their own terms please ask your Expedition Planner for more details on including one of these crafts on your expedition.

## SKILLS REQUIRED FOR CANOE BASED EXPEDITIONS

We require intermediate whitewater canoe experience and encourage all our guests to take a whitewater course prior to joining us on the river. Our Expedition Planning Team can assist you in determining whether you have the appropriate skill level to join us on a canoe journey.

Some of our itineraries allow for the chance to build skills on the river with our guides who are all certified canoe instructors. On other

itineraries, the whitewater begins right away so you will need to have a high level of skill already in place. This includes confidence with techniques such as draw, cross draw, pry and sweep, ferries and eddy turns, capsizing and swimming in class II/III whitewater.

## CANYON RIGS

We have an alternative approach that can modify these requirements with the use of our “canyon rig” strategy. Above the rapids, we can catamaran the canoes together in pairs, which means you can enjoy greater stability while going for the biggest waves. In the flatter sections we disassemble the rigs.

## WHO TRAVELS WITH US?

We describe our guests as “salt of the earth people”, interesting people who enjoy wilderness, adventure, respect the environment and their fellow travellers – and usually come with some great stories of their own. They come alone, in couples, as a family, or in groups. They range in age from 8 to 80 years (most are surprised to hear the average age is 57). They love natural beauty. Some love the camaraderie, others seek a quiet experience, and our guides are able to ensure that all are satisfied.

On our regular trips we keep our guide to guest ratio 1:4, to provide the best value for the optimum quality of experience. This is the best for our category in the Canadian north. The only problem is that the hardest part of most trips is saying goodbye...

## YOUR EXPERIENCE

Imagine the “Land of the Midnight Sun”, a country of diverse landforms, wild flowers, and new delights to the eye every day. Imagine rivers that flow through these lands in a sinuous manner, serving as a conveyor

to move you from one delightful experience to the next. Imagine rewarding hikes, with a range of distances to choose, to pick the one that's right for you.

You will be accompanied by your knowledgeable guides who share their love for the area, and with them you will unfold the mysteries and experience the beauty of the north. You will wake up each morning in your well equipped camp, not knowing specifically what will happen but knowing it will be memorable and will inspire stories to tell your friends for years to come.

### YOUR JOURNEY BEGINS

After meeting your guides and fellow travellers at the rendezvous point, you will make your way to the river. This usually requires a charter aircraft to fly in, out, or both. The flights take you over truly spectacular wilderness. Have your camera handy for the flight! Past participants have stepped off the plane declaring that "if the trip finished now, I would have my money's worth!"

*A river journey is comfortable, approachable and rejuvenating!*

*Shared moments create the memories that last forever. Taylor Burk photo.*

## DAILY ROUTINE

While on a river journey your days will be filled with wonder! Start your day with locally roasted coffee, fresh fruits and baked wonders from our river galley, float past towering icebergs or stare up canyon walls over 1000 metres high. Revel in intact ecology and take a deep dive into natural history with your guides, or stretch your legs on hikes for all levels!

End your day with a glass of your favourite wine and a delicious home cooked meal and settle into our comfortable camp chairs alongside the evening fire.

## RIVER CAMPING

Camping on the river is one of the great joys of expedition rafting and canoeing. Late afternoon finds you at camp for the evening. As your crew sets up the camp kitchen, everyone finds their ideal camping spot and sets up their home for the night. You'll relax with a cool drink and hors d'oeuvres and get better acquainted with your fellow river companions, as dinner sizzles on the grill. You might spend your free time around camp reading a book, fishing, or taking photos of the breathtaking scenery. After a mouthwatering dinner you'll relax around the campfire and join in the conversation of the group. If it's early in the season you may get to experience the midnight sun. Later in the season you may be treated to a spectacular display of the northern lights dancing in the sky above your campsite.

Finally, it will be time to settle into your tent for the night. Perhaps it's the soothing sound of the river flowing by, the active river lifestyle, or the carefree head space afforded by wilderness, but having a good night sleep is amazingly common.

*The North is a vibrant land full of life. Taylor Burk photo*

## ACTIVE TRAVEL EXPERIENCE

Our itineraries are crafted with those seeking an active travel experience in mind. Explore our offerings and choose from options that include daily activities outside of our downriver journey, hikes over a range of distances, paddling a kayak or packraft alongside the raft 'mother ship' or paddling a tandem canoe.

With a low guide to guest ratio you can choose your level of action each day from contemplative walks through the wildflowers at rivers edge to the chance to surprise a mountain goat in the craggy alpine.

## NORTHERN WILDLIFE & PLANTS

The North is rich with some of the most abundant and diverse plants and wildlife anywhere in the world. Each of our river adventures is scheduled to allow for maximum opportunities to see the plants & wildlife of that particular area.

Wildlife abounds in these watersheds, even if it's not readily seen. Our guides will do their best to point out animal "signs" such as tracks, scat, bear scratching posts, etc. as they come across them.

The interpretation of natural history is a significant focus on our trips. We do our best to impart our knowledge of the geology, wildlife, and prehistory of the area.

*Be transported by the currents of the North.*

*Journeys of  
Discovery  
Under the  
Midnight  
Sun*

## BOOKING YOUR ADVENTURE

We accept reservations on a first come, first served basis and many of our departures sell out 12-18 months in advance.

The first step is to reserve your spot on one of our trips. You can do that using our online booking request form, by calling us at 1-800-297-6927 or emailing us at [info@nahanni.com](mailto:info@nahanni.com).

Once we receive your booking request, we will contact you to confirm your trip dates and we'll request that you read and sign our waiver and release form prior to making a deposit. We require a signed waiver and a deposit to reserve your spot. Then we'll send you a detailed pre-trip package that will help you prepare for your adventure. More important details you should know about making reservations can be found on our website.

**Travel Insurance:** *You are about to embark on a journey to some of the most remote, wilderness areas on earth! We encourage all our guests to purchase trip interruption, trip cancellation and emergency medical insurance at the time of booking. Proper insurance will ensure your investment in your wilderness journey is protected.*

*Packrafts offer a chance to explore on your own terms.*

## FLIGHT PLAN

It has never been easier or more convenient to fly to the Yukon or NWT! Air North, Air Canada, Canadian North, and WestJet provide access from southern hubs including Vancouver, Calgary and Edmonton. Air Canada and Condor serve guests coming from Europe. We can help you find the easiest and most economical route to your meeting point.
